

# Specification Sheet (Superceded) / 01 Z415

ISO9001, ISO14001, ISO45001  
Certificate Ref: 11738

## Product Form

Available sheet sizes 914mm x 914mm  
Thicknesses available in 0.9mm / 1.59mm / 2.4mm / 3.2mm thick.

## Applications

A336 Fluorosilicone Sponge is a closed cell sponge that can be used in most gasket applications.

This material is flexible and compressible and designed for use in extreme temperature ranges with excellent weathering characteristics; compression set resistance, electrical strength and no-stick properties.

A336 Fluorosilicone Sponge is often chosen as the material of choice for applications containing oils and fluids that would degrade normal elastomers.

Property	Unit	Typical Value	Test Method	Test Method
